

3RD GRADE MATH POWER STANDARDS

Number and Operation

- I can use place value to read, write, order, compare and round numbers to 10, 100, 1000, 10,000
- I can add and subtract multi-digit numbers.
- I can solve word problems using addition, subtraction, multiplication, and division.
- I can show that I understand basic multiplication and division facts through various methods and models.
- I can read, write, order and compare fractions.

Algebra

- I can use patterns to solve real world mathematical problems.
- I can understand how to interpret number sentences involving multiplication and division basic facts and unknowns.

Geometry and Measurement

- I can tell time to the minute to determine elapsed time.
- I can make change up to \$1.
- I can read a thermometer to the nearest degree.
- I can identify parallel lines, perpendicular lines, and polygons.
- I can use my knowledge of measurement to find the perimeter of a polygon.

Data Analysis and Probability

- I can interpret data using graphs, tables, and line plots.
